Introduction and Purpose of the Request for Proposal

The Montréal Exchange (the “**Bourse**”) is inviting all approved participants/foreign approved participants or clients of approved participants/foreign approved participants with direct electronic access to the Bourse who are interested in the new market making program described herein (the “**Market Making Program**”) to submit a proposal outlining their abilities and commitment towards the market making of the Bourse’s One-Month CORRA Futures (COA) (a “**Proposal**”).

Background

The Bank of Canada (through the Canadian Alternative Reference Rate [CARR] working group) is promoting the use of benchmarks that are robust, reliable and resilient to market stress. The Canadian Overnight Repo Rate Average (CORRA) has been identified as the primary alternative reference rate for the Canadian marketplace and the Bank of Canada expects it to become increasingly adopted and to eventually become the dominant Canadian interest rate benchmark. The recent publication recommending CDOR’s¹ cessation by the end of June 2024 should help the development of CORRA markets in the next few years.

The CARR has prescribed a [transition roadmap and different milestones](#) regarding the usage of CDOR in financial instruments, including (among other specifications) the expectation that no new CDOR exposure be booked by Canadian participants after June 2023. Considering the need to introduce a forward-looking CORRA benchmark in certain types of loan agreements/products, the listing of One-Month CORRA Futures (COA) will be instrumental in supporting a Term rate structure. The program will be supportive of the industry’s [CORRA-first initiative](#) for derivatives set forward by the CARR. Term CORRA calculation is expected to be based on trading activity in CORRA futures and a Term CORRA rate structure is expected to be published by the end of Q3-2023.

Consequently, and as part of its continued efforts to promote and foster market liquidity, the Bourse will implement a new Market Making Program on One-Month CORRA Futures (COA) during the regular trading hours period.
