MODIFICATION OF THE MINIMUM QUOTATION SPREAD FOR EQUITY, INDEX PARTICIPATION UNIT AND INDEX OPTIONS CONTRACTS

EXPANSION OF THE PENNY PILOT PROGRAM AND REPLACEMENT OF CLASSES

As part of decision 2013-SMV-0019 rendered by the *Autorité des marchés financiers* (the AMF) on February 27, 2013 authorizing the extension of the Penny Pilot Program **until February 28, 2014**, Bourse de Montréal Inc. (the Bourse) has been authorized to proceed with the periodical replacement in the Program of classes that have been delisted from the Bourse. New classes will be added to the Penny Pilot Program each time there is a plan of arrangement that affects a class included in the Program.

The Bourse will therefore modify certain classes in the Penny Pilot Program following changes in the underlying shares. These modifications will reflect either a change of name, a plan of arrangement or the replacement of a class. Volume of activity on the class during the six preceding months, market demand, and whether the class is interlisted on a US exchange will be the determining criteria for the replacement of a class.

Osisko Mining Corp. (OSK) will be added in replacement of Nexen Inc. (NXY) that will be delisted from the Toronto Stock Exchange at the close of business on February 28, 2013. (the Bourse’s circular no. 028-13). The Bourse will keep in the penny pilot program the series of Nexen Inc. options that have open interest. (NXY1). Also, the Bourse modified the symbol of Research in Motion Limited in the table below to reflect the symbol change from (RIM) to (BB) (the Bourse’s circular no. 019-2013).

Classes listed in Schedule A will be part of the Penny Pilot Program starting Friday March 1, 2013.

All series of the XEG, XFN, XGD and XIU option classes and all series priced below \$3.00 in the other equity options classes enumerated in Schedule A will be quoted in pennies. Series priced \$3.00 and higher in all options classes enumerated in Schedule A, other than XEG, XFN, XGD and XIU options series, will be quoted in increments of \$0.05.
