A.3 Equity, ETF, and currency options

A.3.1 Fees for regular transactions

	Client	Firm	Market maker	PTP ¹
Equity options	\$0.50	\$0.50	\$0.16	\$0.16
ETF options	\$0.35	\$0.35	\$0.16	\$0.16
SXO	\$0.60	\$0.60		
Index options except SXO	\$0.25	\$0.25		
Currency options	\$0.50	\$0.50		

¹ Terms and conditions for the Proprietary Trader Program (PTP) are in footnote 1 in the appendix.

A.3.2. Fees and fee caps for pre-arranged transactions (crosses) with size above 250

	Client	Client fee cap	Firm	Firm fee cap
Equity options	\$0.43	\$2150/leg	\$0.16	\$800/leg
ETF options	\$0.35	\$1750/leg	\$0.16	\$800/leg
Index options except SXO	\$0.25	\$2500/leg	\$0.25	\$2500/leg
Currency options	\$0.50	\$5000/leg	\$0.25	\$2500/leg

A.4 Share futures (single-stock, ETF, and trust units) and sector index futures

Fee formula:	$\text{Multiplier} \times (\text{Maturity date} - \text{trade date}) / 365 \times \text{trade price} \times \text{trading unit}$	
Multiplier for share futures		0.00032

Multiplier for sector index futures		0.00016
Maturity date:	Maturity date of the contract	
Trade date:	Date on which the trade is executed	
Trade price:	Price at which the contract is traded	
Trading unit:	Number of shares underlying one contract	

For larger trades, the transaction fee (per contract, per side) calculated using the formula above is rounded to two decimals. The difference between the maturity date and the trade date is the number of calendar days between them including the maturity date itself.

Example computation of the fee

For a hypothetical share-futures trade of XYZ for 10,000 contracts, supposing the price is \$50, the trade date is 1 June 2024, and the maturity date is 16 June 2024, the transaction fee per contract would be:

$$(0.00032 \times (\text{Jun16} - \text{Jun01}) / 365 \times \text{Trade price} \times \text{Trading unit}) =$$

$$(0.00032 \times 16 \text{ days} / 365 \times (\$50 \text{ per share} \times 100 \text{ shares})) = 0.07014$$

The fee, rounded to two decimals, is \$0.07.

The total amount owing would be \$0.07 x 10,000 contracts = \$700.

B. Fees for technical services

B.1. Monthly fees per AP for service packages and allocations of services by package

	ISV	Basic*	Standard	Options MM	Deluxe	OR booster

Definitions of technical services

TMS + APS or FIX TM

- **TMS** is the Trade Management System, an application that handles post-trade allocations and that provides real-time trade reporting.
- **APS** is the Average Pricing Service, a TMS service that allocates clients' positions at an average price obtained when trading.
- **FIX TM** handles post-trade allocations when entered via FIX (Financial Instrument Exchange) protocol.

OR or FIX sessions are the order-entry channels to enter orders on MX.

SAIL is SOLA Access Information Language, the native order and quotes management protocol for SOLA, the MX trading engine.

PTV SAIL enables pre-trade validation (PTV), which can check credit and position limits before trades are entered.

SAIL BQ (Bulk Quote) and **PQ** (global cancellation) connections are used by options market makers to quote and cancel orders on multiple options lines simultaneously.

TMX Connect Web PTV is a web-based interface to set up pre-trade validation via TMX Connect, the MX single sign-on system.

SAIL/FIX ATR is Automated Trade Reporting, a real-time feed of trades by approved participants.

Drop Copy is a historical report of messages sent to a market participant.

PAR is a Participant Activity Report, a combination of reports containing instrument lists, trade and post trade information as well as order information..

LOPR is the Large Open Position Report, a report that Approved Participants are required to make [under certain conditions](#).

TMX Connect Tableau provides access to various participant activity dashboards via Tableau.

Protocol certification is a process to demonstrate that a participant's system can reliably communicate with the MX.

Appendix

Customers within Canada are billed in Canadian dollars. All others are billed in US dollars.

Any billing document (invoice, transaction report, etc.) must be verified without delay. The Bourse must be advised in writing of any error or omission within thirty (30) days following the document date.

The amount of any invoice becomes due and payable thirty days following date of invoice. Any payment not so forwarded shall be subject to a late payment charge. The late payment charge shall be charged against the amount not so received multiplied by an interest rate of one and a half percent (1.5%) per month, or as otherwise mandated by regulatory or governmental authorities; but in no event shall the applicable interest rate exceed the maximum rate permitted under applicable usury laws.

All taxes, whether local, provincial, state or federal, business, property excise tax, or other governmental taxes will be added, if the case arises, to the above-mentioned fees according to the service offered.

(1) Eligibility Criteria for Proprietary Traders: To be eligible to participate in the Proprietary Trader Program as a Proprietary Trader, a trader shall:

- (a) have traded a minimum of 10,000 cleared contracts of any one of the following Bourse products in one of the preceding three months: BAX, CRA, COA, CGB, CGF, CGZ, LGB, SXF, SDV, SCG, SEG, or SXM;
- (b) have been accepted into the Proprietary Trader Program by the Bourse; and,
- (c) be in compliance with the Proprietary Trader Program Terms and Conditions.

A failure to comply with each criteria set forth above will result in the withdrawal of the Proprietary Trader from the Proprietary Trader Program. Proprietary Traders will be eligible for Proprietary Trader pricing across all Bourse products upon satisfying the eligibility criteria set forth above. Please see the Proprietary Trader Program Terms and Conditions for further details.

(2) Eligibility Criteria for LPS: Proprietary Traders are eligible to obtain LPS in certain Bourse products. LPS may be obtained in the following products for Proprietary Traders that have traded, in each of the preceding 3 months, a minimum of:

- (a) BAX LPS - 100,000 BAX cleared contracts;
- (b) CGB, CGF, and CGZ LPS - a combined aggregate of 50,000 cleared contracts across the CGF and/or CGZ contracts; or,
- (c) SXF LPS - 100,000 SXF cleared contracts.

A failure to maintain the volume minimum for a Bourse product set forth above will result in the removal of LPS from the Proprietary Trader in that Bourse product. LPS must be obtained in the applicable Bourse product in order to be eligible for LPS pricing in that Bourse product. Obtaining LPS in one or more Bourse products will not result in LPS in another Bourse product in which the eligibility criteria have not been satisfied. A trader must be a Proprietary Trader in good standing in order to be eligible for LPS. Please see the Proprietary Trader Program Terms and Conditions for further details.
