Introduction and Purpose of the Request for Proposal

The Montréal Exchange (the “**Bourse**”) is inviting all approved participants/foreign approved participants or clients of approved participants/foreign approved participants with direct electronic access to the Bourse who are interested in the new market making program described herein (the “**Market Making Program**”) to submit a proposal outlining their abilities and commitment towards the market making of the Bourse’s Ten-Year Government of Canada Bond Futures (CGB) during the Extended trading hours period (as defined below) (a “**Proposal**”).

Background

Listed in 1989, the Ten-Year Government of Canada Bond Futures (CGB) has developed into one of the Bourse’s most successful fixed income futures contracts, trading an average of approximately 96,000 contracts per day (year 2017).

As stated in [circular 165-17](#) published on the Bourse’s website on November 14th 2017, the Bourse proposes to extend its trading hours by opening its market at 2:00 am ET rather than the current 6:00 am ET open. Consequently, the Bourse will be implementing a Market Making Program on the CGB over the 2:00 am ET – 6:00 am ET trading period (the “**Extended trading hours period**”), with the ultimate goal to foster and promote market liquidity during non-domestic trading hours.

Program

Description of the new Market Making Program

As part of its continued effort, the Bourse will proceed, if the responses submitted are satisfactory, with the selection of up to four (4) market makers (the “**Market Makers**”) who will quote the Designated Contracts.

Eligibility and Selection Criteria

All approved participants/foreign approved participants or clients of approved participants/foreign approved participants of the Bourse are eligible to be appointed as a Market Maker.

The Bourse will consider the criteria listed in article [6395 of its Rules](#) in selecting Market Makers, including:

- **Technology:** Automation capabilities which can be deployed to support efficient market making activities.
- **Knowledge:** Market Makers will be required to have the necessary skills and experience for the market making of fixed income products.
- **Compliance with rules:** Only approved participants/foreign approved participants or client of approved participants/foreign approved participants in good standing and in compliance with the Rules and Procedures of the Bourse will be considered.

Incentives

Market Makers may have different sets of obligations for which they will be granted different sets of incentives. These will be determined according to respective market making abilities and committed size and spread indicated by the Market Makers in the Application Table below. Market Makers committed to posting more liquidity would be rewarded with a larger compensation.

Full or partial incentives shall be paid monthly, subject to the Market Maker fulfilling the obligations contained in the Market Making Agreement signed with the Bourse.

Transaction and Clearing Fee Waivers

The Market Makers shall be eligible for fee waivers comprising transaction fees and clearing fees with respect to market making transactions occurring during the Extended trading hours period. The fee waivers shall remain in effect for the duration of the Market Making Program.

Variable Compensation

The Bourse will distribute a portion of its net transaction revenues (net of rebates) generated during the Extended trading hours period for the Designated Contracts between the selected Market Makers, based on their respective relative performance, for a period of 1 year.

Fixed Compensation

The Bourse will also grant a fixed compensation, referred to as the stipend, to the selected Market Makers, paid on a monthly basis for a period of 1 year.

Duration of the Program

The duration of the Program will be one year. Market Makers will be required to sign a standard Market Making Agreement for a fixed one-year term, with the Bourse.

Designated Fixed Income Futures Contracts

Ten-Year Government of Canada Bond Futures (CGB) (the “**Designated Contracts**”)

Market Making Requirements

Market Makers will be required to post markets at the contracted minimum size and maximum spread (or better), for a predefined percentage of time. The agreement may also include other quantitative and/or qualitative requirements.

Monitoring of Performance

The Bourse will be monitoring the Market Makers’ order book activity to determine compliance with the obligations set forth in the Market Making Agreement. The Bourse shall be solely responsible for the monitoring of Market Makers’ compliance with the Market Making Program obligations and the calculation of the corresponding incentives in accordance with the terms of the Market Making Agreement.
